

# Compilation & Installation

## Initial Steps to be Followed :

**Step 1:** Open Eclipse

**Step 2:** Click File → Import

**Step 3:** Type Maven in the search box → Select an import source

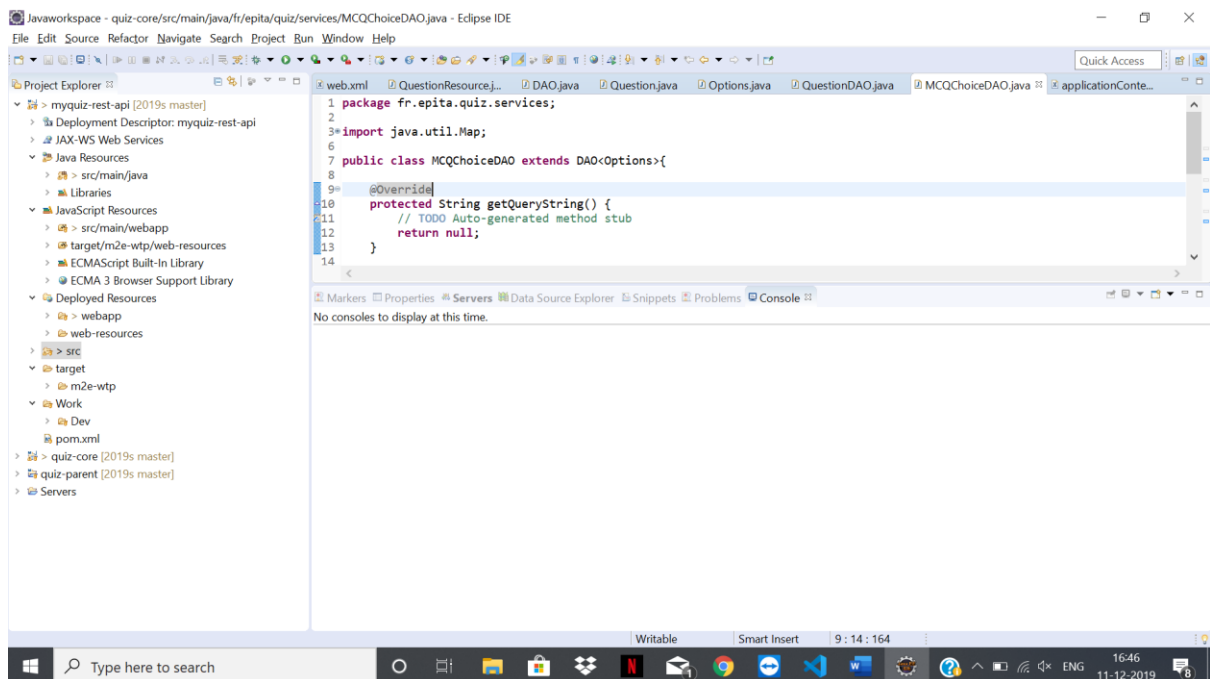

**Step 4:** Select Existing Maven Projects

**Step 5:** Click Next

**Step 6:** Click Browse and select the Maven project root folder(probably contains the pom.xml file)

**Step 7:** Click Next

**Step 8:** Click Finish.

## Compilation & Installation-ANGULAR 8

**Step 1:** Installing angular is a four-step process as follows

- `npm install -g @angular/cli`
- `ng new Quizapplication`
- `cd C:\Users\HP\Desktop\Angular-Quiz\Quizapplication`
- `ng serve --open`

**Step 2:** The Quizapplication is now opened in the browser →

<http://localhost:4200/register>
